

print tips

- for best results, print on cardstock, or the thickest paper you have
- tell your printer which kind of paper you're printing on (matte, semi-gloss, plain)
- be sure to check "fit to size"
- try printing at 70% scale for tiny cuteness!
- if all/any of this stresses you out, just press print and it will still be cool

a little
love-day
treat
